P3 — LEGEND SELECTION

Legend opened	Gate 1 domains	Gate 2 threshold	Chosen
Legend-less?	Y / N	Forced (nothing passed) / Chosen	

WIN-CONDITION SENTENCE · write before cutting cards

PAGE 2 · LEGENDS + THE BUILD

LEGEND MODIFIERS · applied in P3

ELEVATE = treat as MUST-PLAY for this Legend. Jayce, Nalus and Kennen omitted — all three need a synergy density you can't assemble sight-unseen.

AKALI — Conquer and retreat, never hold
THRESHOLD 3+ move payoffs
BATTLEFIELD Protective Sands · Risen Altar
ELEVATE Pendulum Blade · Affectionate Poro · Akali Deadly Weapon · Twilight Reveler
CURVE 4–5 turn-1 · heavy E3–E4 · max 1 at 6+
• Pendulum Blade → move → move again = +5 Might, two battlefields in a turn
• Equipment survives its holder — re-equip it. Akali Silent hits M6, M8 if moved twice
• Poro in a showdown → move it out → free draw (JUDGE-CONFIRMED: after damage)
• Move works unEmpowered; only the ready needs Empower

MEL — Shrink everything, win on attrition
THRESHOLD 3+ Empower outlets, 2+ –Might removal
BATTLEFIELD Sandswept Tomb · Risen Altar
ELEVATE Kinkou Lifeblade · Mel Defiant Soul
CURVE 3–4 turn-1 · load E3–E5 with real bodies
• Legend –2 + Mesmerize –2 = –4; add Mel Newly Awakened = –6, reaches M9
• Shock Blast + Legend kills M6
• Tail-Cloaked Matriarch returns a free ≤3-cost unit per re-Empower
• Both domains are body-light: splash for beef, not tricks

ZED — Flow/banish aggro, press the board
THRESHOLD 3+ Flow spells and 3+ banish outlets
BATTLEFIELD Risen Altar · Shadow Temple (4+ Flow only)
ELEVATE Punching Poro · Ravenbloom Prefect · Zed From the Shadows · Zed Without a Sound
CURVE 4–5 turn-1 · heavy E2–E4
• Flow → banish → Empowers Zed → disempower → loot next Flow spell into trash
• Zed Without a Sound swaps with a Shadow Clone for 1, dodging a losing combat
• Fuel with discard, not Burn. AVOID Endless Riches — deletes your own engine
• Flow + Empower together does NOT work: too many triggers, too few runes

AMBESSA — Empower chain aggro, go wide
THRESHOLD 3+ cheap Empower outlets (≤2 cost)
BATTLEFIELD Risen Altar · Protective Sands
ELEVATE Noxian Emissary · Solari Sunhawk · Profiteer · Tools of Empire · Ambessa Respected & Feared · Aurok General
CURVE 4–5 turn-1 · heavy E3–E4 · max 2 at 6+
• Legion Marauder = cheapest recharge in the set
• Profiteer moves an Empowered status onto the Legend = free Empower
• Kayle = three chain triggers, ends M9 with Deflect 3 + Ganking
• Aurok General gives every Empowered unit +2 · Risen Altar discounts units, not gear
RENEKTON — Two decks under one Legend, pick one
THRESHOLD A 3+ low-rune payoffs, or B 6+ spare energy
BATTLEFIELD Protective Sands · Threshold of the Gray
ELEVATE A: Forsaken Baccai · Oasis Raider · Baccai Sandspinner · Eclipse Dragon · Renekton Rage Fueled B: Tools of Empire · Renekton Brute · any repeatable sink
CURVE A low and wide · B higher with sinks
• Reaction energy pays Empower costs mid-combat
• Rune recycling is an on-demand Reaction — "≤4 runes" is a choice
• Never merge the two builds
• Rated low everywhere — if both thresholds fail, take the extra card
SHEN — Pairs and hold, score out
THRESHOLD 4+ "exactly one other unit" payoffs
BATTLEFIELD Kinkou Temple · Sandswept Tomb
ELEVATE Disciple of Shen · Affectionate Poro · Keeper of Law · Shen Scourge of Shadows · Horns of the Dragon · Shen Leader of the Kinkou
CURVE slower is fine: 3–4 turn-1 · load E4–E6
• Going second: unit turn 1, then move in + Shen Scourge at that battlefield turn 2
• Ki Barrier + Tank → they need prevented damage plus Might for lethal
• Shen Leader scores on every hold with exactly one other unit — that IS the win condition
• WEAK TO Dune Surfer, which ignores Tank and is a common

THE BUILD

Legend		Chosen Champion		Signature	
Final domains (≤3)		Deck size		Rune split	
Units		Spells		Gear	

CURVE · count per cost, NOT cumulative

Cost	≤2	3	4	5	6+
Units					
Spells / Gear					

MIGHT · count per bucket, NOT cumulative

Might	≤2	3	4	5	6+
Units					

M5+ is a diagnostic, not a target — Legends that GENERATE Might (Akali, Ambessa) read low and are still correct.

Turn-1 units (2-cost)		Removal / damage cards		Cards at 6+ (max 2)	
------------------------------	--	-------------------------------	--	----------------------------	--

Ol' Poro is NOT a turn-1 unit (barred turns 1–3) · Punching Poro is. Removal = damages, kills, banishes, stuns or shrinks an enemy unit — only 23 of 147 cards can. No threshold yet: record it.

BATTLEFIELDS · circle what you play · two or more circled = Bo3, per-game pick goes on page 3

SPLIT

Rule: 5 two-drops at 25–27 cards, 6+ at 28 or more. Pip demand = every pip you intend to pay (play · Empower · equip · Flow · activated ability). Any single cost needing 2 of one colour → that colour ≥5. Splits: 6/6 · 7/5 · 8/4 · 6/3/3 · 6/4/2 · 4/4/4. Pips: (R) Fury (G) Calm (B) Mind (O) Body (P) Chaos (Y) Order.

DOMAIN STRATEGY CARDS · 3 double-sided cards for 3 sleeves

Cut the 3 solid outlines. Fold each backward on the dashed line — the lower half is printed upside down so it reads correctly on the back. Folded size 2.5 × 3.5 in. Pairs are colour-wheel opposites: Fury/Calm · Body/Mind · Order/Chaos. GREY = Action, Reaction or Ambush — can be played on YOUR turn; unshaded only on theirs. ▢ Hidden · » Ambush · † a unit whose own ability removes or damages.
